EDUCATION

- VIT Bhopal University, Bhopal, Madhya Pradesh**
B.Tech in Computer Science (E-Commerce Technology)
 - D.A.V Public School, Dehradun**
12 Standard - 80.2% (CBSE Board)
10 Standard - 86.6% (CBSE Board)
- 2023-present
CGPA: 8.52

TECHNICAL SKILLS

- Programming Languages:** Java, C++, Python
- Backend Development:** Spring Boot, REST APIs, Node.js, Express.js
- Frontend:** React.js
- Databases:** MySQL, PostgreSQL
- Tools:** Git, IntelliJ IDEA, VS Code, Postman
- Concepts:** JWT Authentication, Multi-Tenancy Architecture, OOP, DBMS, OS, CN

PROJECTS

- Multi-Tenant SaaS Backend**

Java, Spring Boot, PostgreSQL

 - Architected and deployed a scalable multi-tenant backend with schema-level isolation.
 - Implemented JWT-based authentication and robust role-based access control (RBAC).
 - Designed and documented RESTful APIs integrated with Hibernate multi-tenancy.
 - Improved database efficiency and query optimization using Spring Data JPA.
- AI-Based Chronic Disease Management System**

TensorFlow Federated, Python

 - Engineered a Personal Health Digital Twin integrating real-time wearable data streams.
 - Built predictive ML models forecasting physiological outcomes up to 24 hours ahead.
 - Deployed an on-device AI assistant delivering proactive, personalized health alerts.
 - Applied federated learning techniques to ensure privacy-preserving model training.
- CityEye – AI Traffic Monitoring System**

 - Built a real-time multi-task traffic system (YOLOv8 + ByteTrack MVP; ResNet-50+FPN/FCOS production architecture) for congestion, vehicle detection, violations, and anomaly alerts from CCTV feeds.
 - Trained on IDD, UA-DETRAC, and BDD100K; shipped with FastAPI backend, ONNX export for edge deployment (Jetson), and a live Streamlit demo.

ACHIEVEMENTS

- InnovateZ Hackathon - Top 33 of 600 Teams**

 - Selected among the top 33 teams (out of 600) in Zentiti's InnovateZ hackathon as Team Invictus, for CityEye — an AI-powered real-time traffic monitoring system for Indian cities.
- HealthHack 2026 (VITB – JHU)**

 - Cleared two competitive evaluation stages among participating teams.

CERTIFICATIONS

- Deep Learning – IIT Ropar (NPTEL)
- Industrial IoT Markets and Security – University of Colorado Boulder (Coursera)

POSITIONS OF RESPONSIBILITY

- PR Lead, VITBMUN**

Led outreach strategy, stakeholder communication, and coordinated execution teams.
- PR Lead, Start-up Club**

Managed end-to-end execution of technical and non-technical events and partnerships.
